

# **User Manual for Medma Willing To Buy Extension**

Works on Magento 2.0 and above

# Medma Willing To Buy Extension

---

Looking for a new way to get customers engaged more while shopping? Here is something to get involved customers into the action. **Medma Willing To Buy Extension** let your customers place their own suggestion for any product. If you are seeking for a dynamic way of selling products and engage more customers, Willing to buy extension is your perfect match!. One can buy the extension for free and have fun!.

This tool lets merchant / admin grab price suggestions from customers for any product. Admin grabs price suggestions from different customers and updates the final price on store. This extension lets you gain ideas for products and makes it easy for the merchant to make price adjustment accordingly.

Once the final price gets updated by the admin, all the customers that placed their price decisions get notified about the selected final price of the product. This own price variant allows the customer to choose his or her own level of giving.

Admin can anytime enable/disable extension by backend. They can compose their own email content and notify all the customers on price updation. It is totally in the hands of admin to whether or not notify customers on price updation for products.

## **Step 1: Installation**

This Installation Guide will provide you the full explanation of the functionality of the Medma Willing To Buy Extension for Magento.

The only thing that is needed is to install this Plugin and you are ready to go. For Installing extension Medma Willing To Buy Extension step by step, you need to :

- Purchase and Download the package from "My Downloadable Products" page of your account at our website.
- Unzip the Zipped package
- Place the "Medma" directory in "app/code/" directory through ftp.
- Navigate to **Medma → Medma Willing To Buy Extension** to enable / disable extension for any store you need.
- Installation is extremely easy as you can simply install the extension package directly or you can also Upload it from FTP.
- Finish the Installation process.
- Follow The provided instructions.
- That's it !!

Now once you have completed the Installation process, a success message will display on your screen that would indicate that you have successfully completed the Installation Process.

## **Step 2: Admin Account Login**

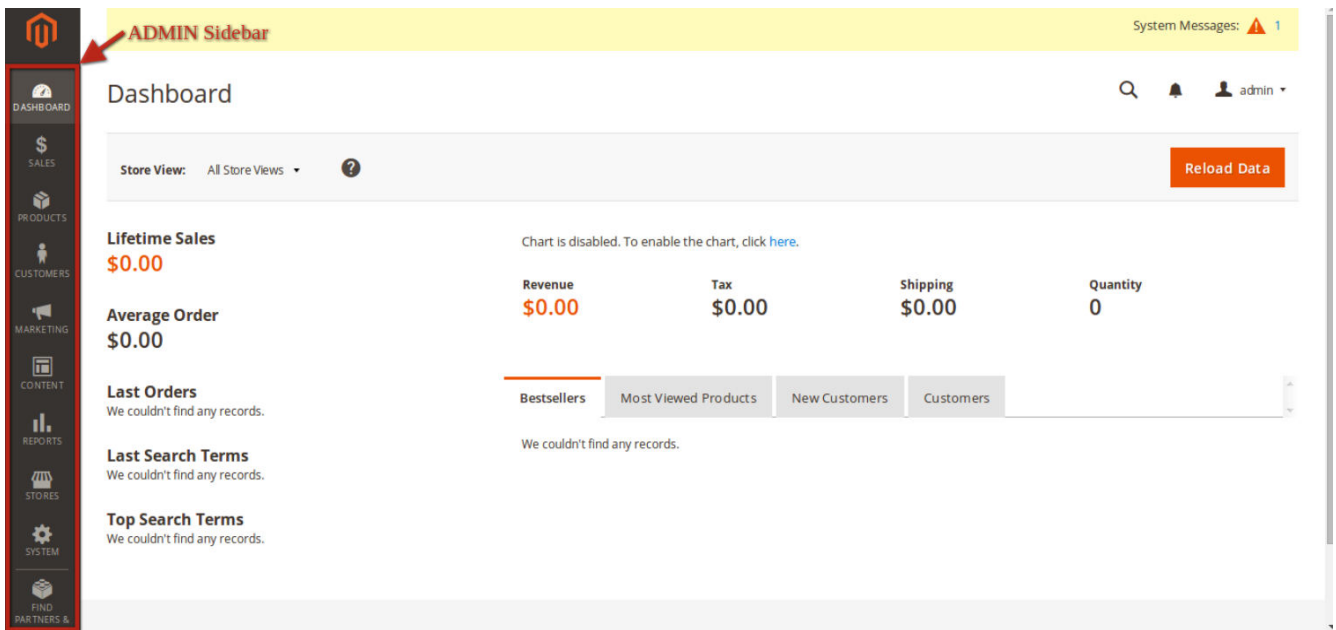

Now In order to Login to your Admin Panel, fill up the required fields on the Welcome Page for a successful Login.
